

Over **100** years of high quality design and manufacturing.

Advanced Water Dispenser Systems and Dehumidifiers

Exclusively distributed by:

OASIS brand is the recognized worldwide leader in the design and manufacturing of bottled and pressure water coolers. It is distributed to over 100 countries through its worldwide sales and warehouse network.

Other products include Point-Of-Use, filtration equipment, non-refrigerated drinking fountains and dehumidifiers. OASIS continues to provide healthy refreshing water throughout the world for over a century through constant innovation, sustainable solutions, and good customer service.

Certifications & Approvals

ACS
Attestation de Conformité Sanitaire

ISO 22000: 2005
Food safety management systems

WRAS

CCA-NTR/ CB/ EMC
Conformity with European Directives: LVD - Low Voltage Directive and EMC - Electromagnetic Compatibility Directive

ISO 9001: 2008
Quality management systems

UL
UL Low Lead Certification

ISO 14001: 2004
Environmental management systems

SASO
(Certificate of Conformity for Exports to Saudi Arabia) - Statement for Registration

Cenit was established in 1992 and began as a lighting distributor, representing prestigious global brands from Europe and the USA to offer a full range of outdoor and indoor lighting solutions for commercial, institutional, residential, infrastructure, public spaces, and other applications for the Philippine market.

The Cenit team regularly undergoes extensive product training to develop the expertise to provide customers safe, reliable, energy efficient, and cost-effective solutions that meet project and budget requirements while fulfilling the project's vision and goals.

Cenit provides customer services covering technical consultation, basic lighting calculation, product installation assistance and maintenance service support.

Today, the company is expanding its product and solutions portfolio and introducing innovative new products to serve its customers better.

Delivering Refreshing Water to the World Since 1910

Since 1910, we've innovated and manufactured our water dispensers and dehumidifiers to over 80 different countries with manufacturing facilities in Europe and North America.

KALIX

Contactless Water Dispenser

Kalix Contactless Water Dispenser uses advanced infrared sensors for automatic water dispense activation which also eliminates any concerns of cross-contamination from pathogens and viruses.

This new technology provides users with quick and easy (hot or cold) drinking water options from a safe and reliable source.

Ideal for Offices, Hotels, Hospitals, Convention Centers, Manufacturing plants & Residential use.

Eliminates cross-contamination

- Advanced infrared sensors for hygienic dispensing.
- Eliminating risks of infection from touching surfaces.

Guaranteed Safe Drinking Water

- Complete with BluV UV Water Sterilizer that kills 99.9% water viruses.
- Complete with factory installed 2 stage filters (Sediment and Carbon) for quick and easy drinking water.

Savings

- Direct tap into water line.
- No need to buy big water containers regularly.
- Eliminate storage space for plastic water bottle containers.

How to use:

Place your right hand near the blue sensor and cold water will dispense automatically.

Place both hands near the two red sensors and hot water will dispense automatically.

***All our hot water options meet hot-safety requirements.**

AQUA POINTE

Sensor Activated Bottle Filler

Aqua Pointe delivers ambient drinking water. This surface mounted bottle filler includes an electronic sensor for a contactless activation. The Bottle Counter conveniently displays the number of times the unit has been used, encouraging the refill of sports bottles.

Key Aqua Pointe moulded components contain Freshield, which utilizes a silver-based antimicrobial compound that reduce the growth of micro-organisms and mildew that protect the surfaces from discolouration, odour and degradation.

Ideal to complement drinking fountains of schools, gyms, airports and other public areas for people who bring their own personal water bottles.

Features:

- **AUTO SENSE** Sense bottle automatically to fill with clean and refreshing water.
- Built-in 100 micron strainer stops particles before they enter the waterway.
- Waterways are Lead-Free in materials & construction.
- Hands free bottle filler with 20 second shutoff, integrated counter and filler monitor.
- Built in drain - no drip tray to empty.

Surface Mount and Free Standing Bottle Fillers

Bottle Filler + Vandal Resistant Refrigerated Drinking Fountain

Recessed and Surface Mount Bottle Fillers

DEHUMIDIFIER

Evolution-D165

The classic-evolution dehumidifier range has withstood the test of time with its timeless design and engineering as the world's first electric dehumidifier.

Each cabinet is built with long-lasting laminated steel, equipped with an efficient refrigeration system that features an automatic humidistat control and an auto-defrost system.

Ideal for Hospitals, Data Centers, Libraries & Museums, Household & Offices.

DEHUMIDIFIER WITH R290

Reduction in GWP (Global Warming Potential) from 1,430 (R134a) to less than 2 (R290) helps to combat global warming and climate change.

Features:

- The use of **R290** is increasing due to its low environmental impact and excellent thermodynamic performance. It is non-toxic and has an ozone depletion potential (ODP) of zero and a global warming potential (GWP) of 3.
- Reduced power consumption compared to equivalent dehumidifier with HFC refrigerant by approximately 10%
- Improved mid range performance compared to equivalent dehumidifier with HFC refrigerant by approximately 14% in 20 C and 60%RH
- Modified front grille for easier maintenance.
- Frost free unit - now all OASIS dehumidifiers come standard with advanced defrost system that prevents freeze of evaporator in any ambient temperatures. Operating temperature ranges from 3°C to 40°C

Specifications:

Model	D165
Weight (kg)	23.5
Dimensions (cm)	60h x 38w x 36d
Power consumption (Watts)	360
Air Flow (Cubic meters/hr)	510
Refrigerant	R290
Refrigerant Charge Weight	150
Power Supply	220 - 240V, 50Hz
Electronic Sensor Defrost System	3-40°C

ULTRA BLUv

Smart UV Water Sterilizer

ULTRA BLUv utilizes the most advanced UV technology. Eliminating **99.9%** of bacteria & viruses in water. It is the industry's most compact, energy efficient and intelligent UV sterilizer.

ULTRA BLUv can be easily installed to upgrade your Point-of-Use dispensing system or filtration system.

Features

- Compact fixture with quick-fit inlet and outlet connections for easy installation.
- Turns ON only when the water passes through, does not increase the temperature of water and energy efficient.
- Equipped with intuitive LED panel signals and control board to ensure device's performance.

The **UltraBluV** can integrate with your regular appliances.
