

# The World's Most Advanced Drinking Water Appliance.

Good Health. Safety. Convenience.

Exclusively Distributed by:

Zip Industries is a privately owned, proudly business that has been manufacturing and marketing Australian designed and made instant water systems since 1947 and has built its brand for more than 70 years with a history of world-first innovations, starting with the first on-wall instant boiling water system in 1975.

During the 1960s, Zip expanded its range of over-sink boiling water heaters catering to canteen, restaurant, factory and office kitchens. It changed the way we drink water. No more sitting by the kettle, no more waiting for a coffee. Before long, Zip over-sink boiling water heaters were sold in more than 70 countries around the world.

Zip continues to evolve, innovate and refresh how we drink water.

Recently, Zip Water has been recognised as one of Australia and New Zealand's most innovative companies on the 2021 AFR Boss Most Innovative Companies – Manufacturing and Consumer Goods List.

Cenit was established in 1992 and began as a lighting distributor, representing prestigious global brands from Europe and the USA to offer a full range of indoor and outdoor lighting solutions for commercial, institutional, residential, infrastructure, public spaces, and other applications for the Philippine market.

The Cenit team regularly undergoes extensive product training to develop the expertise to provide customers safe, reliable, energy efficient, and cost-effective solutions that meet project and budget requirements while fulfilling the project's vision and goals.

Cenit provides customer services covering technical consultation, basic lighting calculation, product installation assistance, and maintenance service support.

Today, the company is expanding its product and solutions portfolio and introducing innovative new products to serve its customers better.

# Experience water at its best with HydroTap in the workplace

Pure-tasting boiling, chilled and sparkling drinking water in an instant, delivered seamlessly with a Zip HydroTap. There is a HydroTap to suit any workplace.

## **ZIP Hydrotap Touch-Free Wave**

### For the office

Offering the choice of instant filtered boiling, chilled or sparkling water, or all three in any combination, the iconic design of the Classic HydroTap remains a much-loved and popular choice suited to any workplace & home.

## **Celsius Plus All-In-One**

### For the residential kitchen

Offering form and function. Ideal for residential kitchens where clean, minimalist living, combined with convenience and luxury are essential. With an optimised aerator hidden inside the elegant spout of the tap, you'll be guaranteed delicious sparkling water delivery each time.

## **HydroBoil**

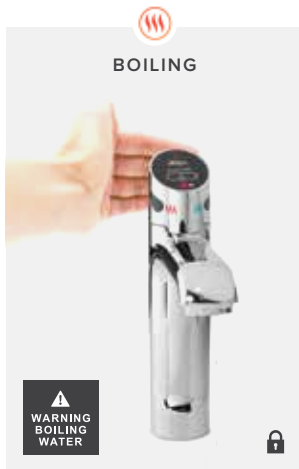

### No waiting for water to boil

Enjoy no waiting time, no queues at the kettle, and reliable boiling water that's always available within 1°C of boiling point. Ideal in commercial or Hotel Kitchen use

Create a safer workplace with the  
ZIP HydroTap **Touch-Free Wave**

Enjoy the same industry leading technology from Zip HydroTap to access pure tasting filtered water. Zip HydroTap Touch-Free Wave integrates Australian made innovation with patented PowerPulse boiling, Direct DryChilling and ColdCore Carbonation technologies with MicroPurity filtration to transform tap water instantly.

Must activate both the left boiling sensor and the back safety lock sensors

Activate the right sensor

Activate the top sensor

## Powered by our latest **G5 technology**

You can benefit from pure-tasting, instant filtered boiling, chilled and sparkling drinking water, all powered by just one single clever under-counter unit. This is our 'magic box' that boasts the very latest in hygiene, user-safety and energy efficient technology.

### Improved user experience

Create your preferred settings with a few touches using the optimised new menu in the HydroTap command centre. Select energy modes and usage settings for easier customisation and check remaining filter life and CO<sub>2</sub> levels (on sparkling models).

### MicroPurity filtration

Our 0.2 micron filtration is certified to reduce the 6 most harmful contaminants, including the ones you can't see, smell or taste:

- Cryptosporidium and Giardia
- Chlorine Taste and Odour
- Sediment
- Lead
- Limescale
- Bacteria Growth

### SteriTouch® for hygiene

SteriTouch® is an antimicrobial additive and the HydroTap employs it in different components - including some components in the G5 command centre water path and the Classic Plus touchpad - to ensure 99.99% of bacteria is killed.

### Energy efficient technology

New innovation is driving energy efficiency from our Power-Pulse™ energy saving technology to the 'sleep' function that reduces energy usage while not in use.

### Environmentally-friendly gas

The HydroTap now uses **R290** refrigerant gas, in line with updated good environmental practice and advice.

### Power-Pulse technology

Zip Power-Pulse™ technology maintains stored boiling water to within 0.2°C of set temperature, meaning no water is wasted waiting for it to heat up.

### Air-cooled system

The air-cooled system eliminates the need for water in the cooling process, making it a great choice for the environmentally conscious.

# HydroBoil Plus

Our most technologically advanced model, the HydroBoil Plus is designed to cut energy consumption. State-of-the-art technology maintains boiling water to within 0.5°C of set temperature. In addition HydroBoil Plus features energy-saving Power-Pulse™ technology, inactivity and low-light sleep modes, along with timer settings for ease of use and efficiency.

## Pure-Tasting Drinking Water

ADVANCED FILTRATION

Our MicroPurity™ system combines activated carbon and 0.2 micron sediment removal technology into one easy to change, hygienic cartridge.

Zip MicroPurity filters are certified to reduce bacteria, sediment, odours to NSF 42 (aesthetic effect) and NSF 53 (health effects).
