

Authorized Distributor of Oasis

# Pure Water. Better Air.

Smart Living Solutions

Established in 1992, Cenit is a trusted distributor of global brands that bring innovative lighting, hydration and technology solutions to the Philippine market.

With decades of expertise, our team is committed to delivering safe, reliable, and energy-efficient products that enhance everyday spaces. Beyond lighting, Cenit proudly partners with Oasis to provide world class hydration solutions ensuring access to clean, safe drinking water for workplaces, hospitals, schools and homes.

We go beyond product distribution by offering technical consultation, installation assistance, and maintenance support helping our clients achieve both performance and sustainability goals. Today, we continue to expand our portfolio with innovations that improve the way people live, work, and stay refreshed.

OASIS is a trusted leader with over 100 years of expertise in designing and manufacturing high-quality water coolers and hydration solutions. Our extensive inventory includes bottled and pressure water coolers, point-of-use systems, advanced filtration equipment, non-refrigerated drinking fountains, and dehumidifiers.

Distributed to over 100 countries through a global network of warehouses and partners, OASIS combines exceptional product quality with reliable after-sales support, ensuring safe, refreshing, and sustainable hydration solutions for every customer.

Environmental management systems

**ISO 22000: 2005**  
Food safety management systems

**CCA-NTR/ CB/ EMC**  
Conformity with European Directives: LVD - Low Voltage Directive and EMC - Electromagnetic Compatibility Directive

**UL**  
UL Low Lead Certification

**SASO**  
(Certificate of Conformity for Exports to Saudi Arabia) - Statement for Registration

## Delivering Refreshing Water to the World Since 1910

Since 1910, we've innovated and manufactured and delivered our water dispensers and dehumidifiers to over 80 different countries with manufacturing facilities in Europe and North America.

### Oasis Kalix

Hygienic, touch-free hydration with safe hot or cold water

### Oasis Aqua Pointe

A compact, sensor-activated filler that encourages healthy, sustainable refills

### Oasis Luxe Underbench

Modern underbench system for instant, pure water with style and convenience

# LUXE UNDERBENCH

## Faucet + Underbench

Upgrade your lifestyle with the Luxe Underbench, a premier faucet and underbench unit designed for modern living. Perfect for Hotel Rooms, Small Offices, Apartments & Homes, this system delivers convenience, versatility, and style all at your fingertips.

### Why Choose Luxe Underbench?

- Versatile Hydration Options: Enjoy hot or cold water with the touch of a button.
- Smart Touch Screen Faucet:
  - 3 temperature settings (80°C, 90°C, 100°C)
  - Re-heating and ECO functions
  - LED indicators for heating, standby, and cold
- Advanced UV Sanitization: Ensures every drop is pure, safe, and refreshing.
- Sleek, Modern Design: complements any kitchen or workspace, adding elegance under your bench.

### Filtration:

The Oasis Luxe Underbench Filtration System provides clean, fresh-tasting water with a steady 1.5 GPM flow rate. Its sediment, activated carbon, and carbon block filters work together to remove particles, chemicals, and odors enhancing the purity and taste of your drinking water.

### Faucet Finish:

Matte Black

Gunmetal Grey

Thoughtfully designed for modern living fits seamlessly at the center of your cabinet, keeping your space clean and organized. Simply allow a bit of room for airflow and easy access whenever needed.

Recommended cabinet size (WxDxH):  
500 x 600 x 600 mm

# KALIX

## Contactless Water Dispenser

Kalix Contactless Water Dispenser features advanced infrared sensors that automatically dispense water, eliminating the risk of cross-contamination from pathogens and viruses. This innovative technology provides fast, convenient access to safe and reliable drinking water. Available hot or cold water with a touch-free operation.

### Why Choose Kalix?

- Eliminates Cross-Contamination:
  - Advanced infrared sensors for hygienic, touch-free dispensing
  - Reduces risk of infection from surfaces
- Guaranteed Safe Drinking Water:
  - BluV UV Water Sterilizer kills 99.9% of waterborne viruses
  - Two-stage sediment and carbon filters for clean, easy-to-drink water
- Savings & Convenience:
  - Direct tap water connection; no need for large water containers
  - Saves storage space and reduces plastic waste

### How to use:

Place your right hand near the blue sensor and cold water will dispense automatically.

Place both hands near the two red sensors and hot water will dispense automatically.

\*All our hot water options meet hot-safety requirements.

### Filtration:

Equipped with a 2-stage filter that delivers fresh, safe, and great-tasting drinking water effortlessly

Optional Filter: ULTRA BLUV Smart UV Sterilizer adds an extra layer of purification by eliminating **99.9%** of bacteria and viruses

Ideal for: Offices | Hotels | Hospitals | Convention Centers  
 Manufacturing Plants | Residential Use

# AQUA POINTE

## Sensor Activated Bottle Filler

Aqua Pointe delivers clean, refreshing ambient drinking water with a touch-free experience. This surface-mounted bottle filler features an electronic sensor for contactless activation. The built-in Bottle Counter tracks usage, encouraging refills of personal water bottles.

Key components are treated with Freshield, a silver-based antimicrobial that helps prevent the growth of microorganisms and mildew while protecting surfaces from discoloration, odor, and wear.

### Why Choose Aqua Pointe?

- Auto sense: Automatically fills bottles with clean, refreshing water.
- Built-in 100-micron strainer: Stops particles before entering the waterway.
- Lead-Free Construction: Safe waterways and materials.
- Hands-Free Bottle Filling: 20-second shutoff with integrated counter and filler monitor.
- Built-In Drain: No drip tray to empty.

### Available Options:

- Surface Mount & Free Standing Bottle Fillers
- Bottle Filler + Vandal-Resistant Refrigerated Drinking Fountain
- Recessed & Surface Mount Bottle Fillers

### Filtration:

Powdered Activated Carbon further enhanced with nano-technology, Remedi filters up to 0.02 microns.

Filters potential pharmaceutical waste and pathogens that may be in water supply.

# DEHUMIDIFIER

## Evolution-D165

Timeless Design. Reliable Performance.

### DEHUMIDIFIER WITH R290

Reduction in GWP (Global Warming Potential) from 1,430 (R134a) to less than 2 (R290) helps to combat global warming and climate change.

Experience the classic Evolution-D165, a dehumidifier built to last. With its durable laminated steel cabinet and advanced refrigeration system, it keeps your spaces perfectly dry and comfortable. The automatic humidistat and auto-defrost features ensure effortless, worry-free operation.

### Why Choose Evolution-D165?

- Eco-Friendly Performance: Uses R290 refrigerant, a non-toxic solution with zero ozone depletion potential (ODP) and an ultra-low global warming potential (GWP) of just 3.
- Energy Efficient: Consumes up to 10% less power compared to dehumidifiers using HFC refrigerants.
- Superior Efficiency: Delivers 14% better mid-range performance in standard conditions (20°C, 60% RH) for more reliable moisture control.

### Specifications:

Model	<b>D165</b>	Air Flow (Cubic meters/hr)	<b>510</b>
Weight (kg)	<b>23.5</b>	Refrigerant	<b>R290</b>
Dimensions (cm)	<b>60h x 38w x 36d</b>	Power Supply	<b>220 - 240V, 50Hz</b>
Power consumption (Watts)	<b>360</b>	Electronic Sensor Defrost System	<b>3-40°C</b>

Ideal for: Hospitals | Data Centers | Museum & Libraries  
 Art Galleries | Homes | Offices

# ULTRA BLUv

## Smart UV Water Sterilizer

ULTRA BLUv harnesses the power of advanced UV technology to eliminate 99.9% of bacteria and viruses from water delivering a safer and healthier drinking experience. Designed as the industry's most compact and energy-efficient UV sterilizer, it combines performance with convenience.

Easily integrated into any Point-of-Use dispenser or filtration system, ULTRA BLUv is the smart upgrade for guaranteed water purity.

### Why choose ULTRA BLUv?

- **Compact & Convenient:** Quick-fit inlet and outlet connections for effortless installation in any setup.
- **Smart & Energy Efficient:** Activates only when water flows—saving energy and keeping water at its natural temperature.
- **Reliable Performance:** Intuitive LED panel and control board monitor the system to ensure consistent operation.

The **UltraBLUv** can integrate with your regular appliances.
