

Authorized Distributor of ZIP

The World's Most Advanced Drinking Water Appliance

Clean. Smart. Convenient.

Established in 1992, Cenit is a trusted distributor of global brands delivering innovative lighting, hydration, and technology solutions to the Philippines. With decades of experience, our team is dedicated to providing products that are reliable, energy-efficient, and designed to enhance everyday spaces.

Beyond lighting, Cenit proudly partners with Zip, a world-class provider of advanced drinking water solutions. Together, we bring safe, clean, and refreshing hydration to workplaces, hotels, hospitals, schools, and homes.

We go beyond product distribution by offering technical consultation, professional installation assistance, and ongoing maintenance support. This comprehensive approach ensures that our clients achieve maximum performance, convenience, and sustainability from the solutions we provide.

Today, Cenit continues to expand its portfolio with cutting-edge innovations that improve everyday spaces, offering solutions that combine functionality, efficiency, and comfort helping people stay refreshed, productive, and inspired.

Zip Industries, a proudly Australian company, has been designing and manufacturing instant water systems since 1947. With over 70 years of innovation, Zip introduced the world's first on-wall instant boiling water system in 1975, revolutionizing the way people drink water.

Expanding into over-sink boiling water heaters during the 1960s, Zip catered to canteens, restaurants, factories, and office kitchens, eventually reaching over 70 countries worldwide. Today, Zip continues to innovate, delivering safe, convenient, and high-quality hydration solutions for homes, workplaces, hospitals, schools, and hotels.

Recognized for its groundbreaking innovations, Zip Water was named one of Australia and New Zealand's most innovative companies on the 2021 AFR Boss Most Innovative Companies Manufacturing and Consumer Goods List.

Experience Water at Its Best with Zip HydroTap

Pure-tasting boiling, chilled, and sparkling drinking water delivered instantly and seamlessly. Whether for homes or workplaces, there's a Zip HydroTap designed to match every environment.

ZIP Hydrotap Touch-Free Wave

For the Workplace

Enjoy instant filtered boiling, chilled, or sparkling water, or any combination, all in one tap. Its touch-free activation and iconic design make it a popular choice for offices seeking convenience, hygiene, and efficiency.

Arc Plus

For Residential Kitchens

Where form meets function. Perfect for modern kitchens that value minimalism, luxury, and everyday convenience. The enhanced aerator concealed within its elegant spout ensures consistently delicious sparkling water with every pour.

HydroBoil

No Waiting. No Kettles. No Delays.

Say goodbye to long boiling times and crowded kettle stations. HydroBoil delivers reliable, instant boiling water maintained within 1°C of boiling point ideal for commercial spaces and hotel kitchens requiring fast and constant hot water.

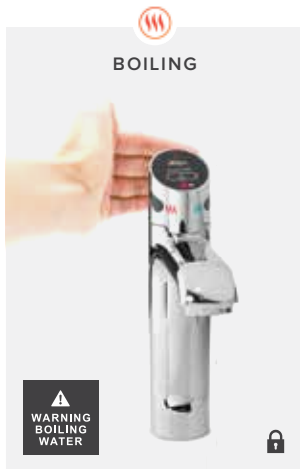

Create a safer workplace with the ZIP HydroTap **Touch-Free Wave**

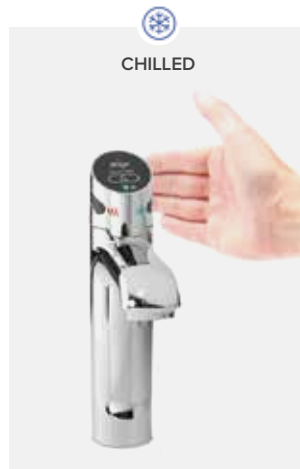

Enjoy the same industry-leading technology of the Zip HydroTap, delivering pure-tasting filtered water with every touch-free pour. The Zip HydroTap Touch-Free Wave combines Australian-made innovation with patented PowerPulse boiling, Direct DryChilling, and Cold-Core carbonation technologies enhanced by MicroPurity filtration to transform ordinary tap water into instant boiling, chilled, or sparkling perfection.

Must activate both the left boiling sensor and the back safety lock sensors

Activate the right sensor

Activate the top sensor

Powered by our latest **G5 technology**

Enjoy pure-tasting, instant filtered boiling, chilled, and sparkling drinking water all delivered by one smart, compact under-counter unit. This “magic box” features the latest advancements in hygiene, user safety, and energy-efficient technology, giving you exceptional performance with every pour.

MicroPurity Filtration

Genuine Zip MicroPurity filters use triple-action technology to deliver the advanced 8-in-1 filtration performance you expect from Zip Water ensuring cleaner, safer, and better-tasting drinking water every time.

Enhanced User Experience

Easily personalize your HydroTap with the improved command centre menu. With just a few taps, you can adjust energy modes, manage usage settings, and monitor remaining filter life plus check CO₂ levels for sparkling models.

SteriTouch® for Hygiene

SteriTouch® is an antimicrobial additive used in key HydroTap components including parts of the G5 command centre, water path, and Classic Plus touchpad to help eliminate 99.99% of bacteria and maintain superior hygiene.

Energy-Efficient Technology

Cutting-edge innovation maximizes energy efficiency, from PowerPulse energy-saving technology to the 'sleep' function, which reduces power consumption when the HydroTap is not in use.

Environmentally-Friendly Refrigerant

The HydroTap now uses **R290** refrigerant gas, aligning with best environmental practices to reduce impact and promote sustainable operation.

PowerPulse™ Technology

Zip PowerPulse™ technology keeps boiling water within 0.2°C of the set temperature, ensuring instant availability and eliminating wasted water while waiting for it to heat up.

Air-Cooled System

The HydroTap's air-cooled system eliminates the need for water in the cooling process, making it an eco-friendly choice for environmentally conscious spaces.

Inspired by the classic gooseneck design, the Arc Plus combines sleek sophistication with exceptional functionality, transforming your culinary space into a modern, stylish, and convenient hub.

Filtered Boiling | Filtered Chilled | Filtered Sparkling

Advanced Filtration in Every HydroTap System

Our 0.2 micron filtration is certified to reduce the 8 most harmful contaminants:

- Chlorine (taste and odour)
- Sediment
- Lead
- Cryptosporidium and Giardia
- Bacteria Growth
- Asbestos
- Microplastics
- PFAS

Zip MicroPurity™ filters are rigorously tested and certified to NSF Standards 42 (Aesthetic Effects), 53 (Health Effects), and 401 (Emerging Compounds/Incidental Contaminants), ensuring the highest levels of water safety and quality.

Zip MicroPurity™ Filters - The Best Choice for Pure Water

99.4% PFAS Reduction

Our advanced filtration system is rigorously tested to significantly reduce PFAS levels, delivering cleaner, safer water for everyday use.

Triple Action Technology

Zip MicroPurity™ combines high-performance activated carbon with advanced microfiltration to remove impurities and consistently deliver pure-tasting water.

Instant Purity

Enjoy filtered, great-tasting water instantly at the press of a button with every HydroTap.

Sustainability Focus

By reducing reliance on bottled water, Zip HydroTap helps lower environmental waste and promotes long-term sustainability.

Certified & Trusted

Zip HydroTap meets stringent international standards for water quality, giving you confidence in every drop.

Easy to maintain

MicroPurity™ filters are simple to replace with a hygienic cartridge system, and our qualified service technicians can also perform filter changes for your convenience.

HydroBoil Plus

Our most technologically advanced model, the HydroBoil Plus is engineered to maximize energy efficiency. State-of-the-art technology maintains boiling water within 0.5°C of the set temperature, ensuring instant availability.

HydroBoil Plus also features PowerPulse energy-saving technology, inactivity and low-light sleep modes, and programmable timer settings delivering convenience, performance, and efficiency in every use.

Pure-Tasting Drinking Water

Advanced 0.2-Micron Filtration

The Zip MicroPurity system combines high-performance activated carbon with 0.2-micron sediment removal technology in a single easy-to-change hygienic cartridge.

Certified to NSF 42 (Aesthetic Effects) and NSF 53 (Health Effects), Zip MicroPurity filters effectively reduce bacteria, sediment, and odors ensuring consistently clean, safe, and great-tasting water.
